SHOT BLASTING

Blastrac 1-8DEZ-MK1 8" 110 Volt Shot Blaster

The Blastrac 1-8DEZ is a highly portable, lightweight shot blasting system used to prepare concrete surfaces prior to the application of paint or coatings and is perfect for smaller jobs such as residential garage floors, pool decks, and small industrial floors. Optimal blast-wheel RPM is achieved through a unique gear set in the motor. With a manual travel speed and 8 inch blast pattern, this small blast machine is also ideal for balconies, areas around equipment and obstructions, and other tight spaces.

Blastrac 1-8DEC-MK1 8" 220 Volt Shot Blaster

The Blastrac 1-8DEC-MK1 is an easy-to-use, versatile shot blast system designed for the entry-level contractor, or for use as a complementary unit or edging unit for the medium or large contractor. An optional caster kit makes the system highly maneuverable and helps provide for a more consistent, even profile. The Blastrac 1-8DEC-MK1 is useful for residential garage floors, balconies, pool decks, tight areas around equipment and obstructions, and test patches. It is also used for concrete preparation prior to installation of wood flooring and is great for PVC decorative stenciling.

Blastrac 1-8DPS30 8" 220 Volt Self-Propelled Shot Blaster

New improvements make the Blastrac 1-8DPS30 easier to operate and handle. This economical, self-propelled 8" shot blasting system now features drive controls on the steering handle. An EZ-adjust system for the control cage is another new feature that is operator friendly. Laser-cut components and utilization of improved manufacturing technologies along with a powder-coat finish helps assure quality construction and long life.

The 1-8DPS30's self-propelled operation improves productivity and promotes a more even and consistent blast pattern and surface profile. It consumes abrasive at less than 9 lb. per hr. and strips, cleans and profiles in one easy step to prepare concrete surfaces prior to application of coatings or overlays. Ideal for industrial floors, warehouses, commercial or residential garage floors, this shot blaster can prepare up to 450 to 600 sq. ft. per hour. The 1-8DPS30 is also perfect as a complementary unit for larger shot blasters.

Blastrac 1-10DPS75 10" 230 Volt Shot Blaster

The Blastrac 1-10DPS75 has an AC inverted drive-motor with integrated brake. This improved feature helps maintain speed on ramps and inclines; making it the ideal choice for restoring skid resistance and traction in parking garages or on warehouse floors. It also generates a more even and consistent blast pattern and surface profile when prepping for coatings and overlays or when removing line stripings and markings.

Blastrac 1-10DSG 10" Dual Volt Shot Blaster with Dust Collector

Ideal for medium and large sized jobs the 1-10DS is a versatile, self-propelled 10" shot blasting system. The AC inverted drive-motor for self-propelled operation features an integrated brake which helps maintain speed on ramps and inclines. Easily transportable, the 1-10DS has highly visible and manageable controls, and operates on 230 or 460V with its auto-sensing voltage control 15 hp UL listed motor. Perfect for industrial floors, warehouses, road and airport maintenance, and parking garages, this shot blaster is an environmentally sound choice for your surface preparation arsenal.

Blastrac 1-15DSG1 15" Dual Volt Self-Propelled Shot Blaster with Dust Collector

Ideal for medium to larger sized jobs, the 1-15DSG is a versatile 15" shot blasting system. It strips, cleans and profiles concrete and asphalt in one easy step. A slide-out screen in the shot hopper facilitates the removal of large debris. The 1-15DSG can prepare up to 2690 sq. ft. per hour consuming abrasive at about 1.6 lb. per 100 sq. ft. or 42 lb. per hr. The quick-lift rear caster assembly makes this 1093 lb. unit easily transportable. It has highly visible and manageable controls with the drive control on the steering handle. The 1-15DSG operates on 230 or 460V and features an auto-sensing voltage control 20 hp motor.

SHOT BLASTING

Blastrac 2-20DTG1 20" 460 Volt Only Self-Propelled Shot Blaster with Dust Collector

The Blastrac 2-20DT Global is a powerful self-propelled 20" shot blasting system, ideal for medium to larger sized jobs. Whether improving traction and skid resistance or prepping for coatings and overlays, the versatile 2-20DT Global strips, cleans and profiles concrete and asphalt, or horizontal steel surfaces in one easy step.

The AC inverted drive-motor for self-propelled operation features an integrated brake which helps maintain speed on ramps and inclines. This improves productivity and promotes a more even and consistent blast pattern and surface profile. A slide-out screen in the shot hopper facilitates the removal of large debris.

The 2-20DTSG can prepare up to 4850 sq. ft. per hour consuming abrasive at about 1.6 lb. per 100 sq. ft. or 78 lb. per hr. The quick-lift rear caster assembly makes this 1268 lb. unit easily transportable. It has highly visible and manageable controls with the drive control on the steering handle. The 2-20DTG operates on 460V, three-phase, and all electrical components and panels are UL certified, part of the Blastrac commitment to safety protocol.

Blastrac 2-30D 460 Volt Only Super 30" Self-Propelled Shot Blaster with Dust Collector

The Blastrac 2-30D Super is a powerhouse machine designed for the big jobs that require high productivity. The drive system with integrated brake is designed for ramps and inclines, making the 2-30D ideal for parking decks. A high-speed travel switch on the 2-30D helps ensure uniform surface preparation by allowing for quick repositioning after each pass, without resetting the travel speed. Use this Blastrac Super system for industrial plant and warehouse floors, parking garages, ship decks, highway or bridge work, airport runways and other large jobs.

Item	Description
A38280	Blastrac 2-30D Super Shot Blaster with Dust Collector (ea)

Blastrac 1-10DLP 10" Riding Shot Blaster

The Blastrac 1-10DLP rider is designed for medium to large sized jobs. Use this system for light to medium removal on jobs where a ride-on unit or propane power is desired. A blast pattern adapter is available for reducing blast pattern width for jobs such as line stripe removal. The Blastrac 1-10DLP is a mid-range system ideal for applications such as industrialized plant and warehouse floors, parking garages, bridges, highways, airport runways and ship decks.

Item	Description
A38281	Blastrac 1-10DLP Riding Shot Blaster (ea)

Blastrac 1-16DB 16" Riding Shot Blaster with Dust Collector

The Blastrac 1-16DB features an enhanced trouble-free hydraulic drive system, offering better productivity when cleaning and preparing concrete or steel surfaces. The 1-16DB shot blaster strips, cleans and profiles simultaneously and is ideal for ship decks, parking garages, industrial plant and warehouse floors, bridge and highway work, and airport runways—improving macro and micro texture. The 1-16DB produces sure profiles with excellent bonding characteristics that help reduce coating failures.

PREPMASTER CONSUMABLES

STI FL-07 Polishing System - Full Face Pads

- Specially formulated for concrete — ground with metal bod diamonds for the absolute best finish, OR use the LUX pad as a finishing tool for that extra “POP!”
- Fantastic life of 10,000 sf
- Works on the Prep/Master®, Planetary Machines, Terrco® Machines, EDCO®, Swing Machines, and Werkmaster®

Item	Description
A76627	#3 Grit, FL-073C (ea)
A69174	#4 Grit, FL-074C (ea)

STI Terrazzo Pads

- For wet polishing epoxy- and portland-based terrazzo and stone
- Used as first-cut tool on new, unsealed concrete
- Specialized matrix for aggressive cut with fine scratch pattern
- Useful in closing step & restoration first step
- 3” diameter: 8 mm
- No center hole eliminates collection of debris and spent diamonds

Item	Description
A39165	50 Grit, 8 mm, 3” Wet Pad for Terrazzo (ea)
A39164	100 Grit, 8 mm, 3” Wet Pad for Terrazzo (ea)
A46520	200 Grit, 8 mm, 3” Wet Pad for Terrazzo (ea)

STI 10S Diamond Segments

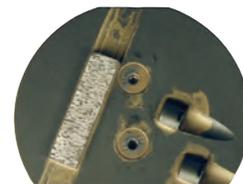

- Use for opening steps on uncoated concrete
- Excellent scratch pattern for old or new concrete
- Use wet or dry
- Attaches in 3 different configurations for multiple machines
- 6mm thickness
- Available with pin

Item	Description
A35709	16 Grit Bolt On (ea)
A35711	30 Grit Bolt On (ea)

FLOOR MAINTENANCE

SPIN-1 Diamond Polishing System for Concrete

- The new SPIN-1 Pad System polishes concrete faster and better than any other diamond buffing pad on the market and does the work in a fraction of the time when compared to large polishing machines.
- Great for maintaining polished concrete!
- Pad life is in excess of 20,000 SF
- Available in 21", 24" & 27" sizes to fit most propane burnishers

CASH Diamond Polishing System for Terrazzo and Marble

The Cash Diamond Polishing pads are excellent for casinos, convention centers, airports, schools, hotels and anywhere else quick and effective polishing of terrazzo and marble is required.

- Excellent for Terrazzo and marble surfaces
- Be Green – No chemical of any kind is required, only water
- Available in 7", 10", 12", 13", 14", 17", 20", 21", & 27" sizes; fits most electric buffers

Mastercraft MCL-17E DLX QuarryMaster Floor Machine

The QuarryMaster™ is designed for the restoration and maintenance of marble, tile, terrazzo, stone and concrete. This versatile floor machine can also be used for standard floor scrubbing, stripping and polishing applications.

Item	Description
58255	Mastercraft MCL-17E DLX Floor Machine (ea)

Prep/Master 21" Burnisher

Prep/Master's four stage dust containment system utilizes a vacuum motor and patented dust control system and skirting.

- Captures up to 80% of dust particles
- Reduces the frequency of dust mopping
- Meets LEED standards and is the "Green" option for burnishers
- Optional emissions eliminator system which provide ultra low emissions
- EPA, CARB, and CE Certified
- Water tank
- Superior Dust Control

Item	Description
A88076	Prep/Master 21" Burnisher (ea)

Prep/Master EZ Vac III

- Use wet or dry
- 110V/12-gallon tank
- 38"H x 25"W x 29"L
- Hepa filter included
- 3 ft. flexible drain hose for easy emptying
- 24" front-mount squeegee
- Dumping mechanism-no more clogged waste hose

Item	Description
A96146	STI EZ Vac III Wet Vac (ea)

27" Black Diamond Burnisher

- 34,000 sq. ft./Hour
- 17/18HP Kawasaki engine
- 1800 RPM brush speed
- Battery key start and 110 volt electric start
- Safe-EPA/CARB/CE Certified and approved
- Easy tilt back pad change design
- Adjustable wheels and handle
- Powder Coated Cast Aluminum Alloy Frame

Item	Description
16370569	Onyx 27" Black Diamond Burnisher (ea)

AmeriPolish Densifiers

SureLock Densifiers

Densifies and colors concrete preliminary to diamond polishing, to obtain a smooth, reflective surface on floor slabs and other concrete products. It increases sheen, abrasion resistance, water resistance, and stain resistance of exposed concrete finishes.

- Acts to lock color into concrete matrix, minimizing color migration or diffusion
- Chemically bonds to other components of Surelock Color System
- Minimizes dusting for healthier indoor air quality (IAQ)
- Penetrates slab surface to deliver solids content deeper into surface layer than conventional lithium silicates
- Reduces labor and time required for installation compared to some densifiers, because it is spray-applied, does not require labor intensive scrubbing-in or gel formation, is fast reacting, requires minimal dwell time, and does not require scrubbing-off or wet caustic residue disposal
- Simple one-step application

Item	Description
16590059	AmeriPolish SLDEN1 SureLock Densifier, Half-gallon/1-gallon RTU (ea)
16500151	AmeriPolish SLDEN5 SureLock Densifier, 2.5-gallon/5-gallon RTU (ea)

3D HS Multiple Level Densifier

- Multiple level densifier penetrates fast for a deep seal into concrete to improve the surface performance and resist the harmful effects of traffic wear and weathering
- Locks in dyes for longer lasting color
- Prepares concrete for high gloss diamond polishing
- Reduces loss of concrete from wear

Item	Description
16671354	AmeriPolish 3D HS Multiple Level Densifier, RTU, 5 gallons (ea)

AmeriPolish Resistors and Protectors

3D SP Stain Protectors

- The 3DSP Stain Protector is a semi-penetrating protector, specifically designed to protect polished, dyed concrete from oil and water-based stains and acidic etching agents
- This protector is at its optimum when used in conjunction with AmeriPolish dyes and 3D HS Densifier; however can be used with other manufacturer's dyes and densifiers

Item	Description
16681355	AmeriPolish 3D SP Stain Protector/Guard, RTU, 1 gallon (ea)
16671354	AmeriPolish 3D SP Stain Protector/Guard, RTU, 5 gallons (ea)

SR2 Stain Resistors

- The SR2 Sub-Surface Stain Resistor provides superior protection. With a small molecular structure, maximum penetration is assured
- Oil and Food stain resistance
- Excellent stain protector for industrial applications with its long-lasting protection

Item	Description
16551754	AmeriPolish SR2-1 Sub-Surface Stain Resistor, RTU, 1 gallon (ea)
16671354	AmeriPolish SR2-5 Sub-Surface Stain Resistor, RTU, 5 gallon (ea)

AmeriPolish Dye

Classic Dye

- Acetone Based
- 22 Colors available in one and five gallon kits
- Colors include: Gold, Raw Sienna, Caramel, Sand, Tierra Cotta, Mahogany, Midnight Black, Chocolate Brown. More colors available.

Surelock Dye

- Can be diluted with Acetone, water or surelock densifier
- 22 colors available in one and five gallon kits
- Colors include: Midnight Black, Burnt Sienna, Terra Cotta, Caramel, Saddle Brown, Patriot Blue. More colors available.

GRINDING/POLISHING

PG280 10" Grinder

When prepping and grinding in medium-sized concrete areas, the PG280 is the floor grinder for adhesive residue, paint, and spackle. The grinding and suction is efficient, due to the high rpm levels, the wide range of grinding discs, and the design of the dust guard and vacuum port.

- Ergonomically designed handlebars with vibration suppression
- 11" grinding width makes it excellent for patch grinding or floor repair to smaller areas
- Easy to use with simple electronics and low noise levels

Item	Description
97912	PG280 10" Grinder 110v (ea)
100953	PG280 10" Grinder 220v (ea)
Accessories	
101703	Rubber Skirt for PG280

PG400 Grinder

For large concrete areas, the PG400 is excellent for preparation and grinding of adhesive residue, paint, and spackle, and the PG400 is easy and convenient to use, with ergonomically designed handlebar and low noise levels

- Efficient grinding and suction from high rpm levels, wide range of grinding discs and the design of the dust guard and vacuum port
- High torque gives efficient grinding of adhesives, paint, epoxy, and spackle
- The machine is light and easy to transport

Item	Description
104466	PG400 16" 220V Single-phase Grinder (ea)
99797	PG400 16" 230V Three-phase Grinder (ea)
Accessories	
103055	Rubber Skirt for PG400

PG530 Planetary Grinder

The Husqvarna PG530 is a planetary grinder with unmatched capacity, excellent for residential and light commercial purposes. The PG530 combines the latest technology to deliver more power and performance than any other triple head planetary machine available in its class.

- FWD/REV operation with variable speed control
- High production rates for rapid removal of tough heavy-duty surfaces/coatings, as well as floor polishing with a light commercial and domestic capacity
- Weighs just 475 lbs.

Item	Description
97596	PG530 Planetary Grinder (ea)
Accessories	
16640942	Redi-Lock Diamond Holder Disc (ea)
16040735	Non-marking White Skirt (ea)

PG680 Grinder

The Husqvarna PG680 is an excellent choice for both large and small applications, and especially commercial purposes. Smaller than the PG820, the PG680 is known for its maneuverability and ease-of-use without sacrificing power and output. At 27" wide, it will fit through a standard door making it accessible to most projects.

- Higher production rates with Dual Drive Technology™; fully independent control of both planetary and satellite grinding heads in regards to speed and direction of rotation, enabling higher production rates
- Gear-driven planetary head
- More stable operation over undulating surfaces with triple-headed grinder

Item	Description
100736	PG680 27" 230V Three-phase Grinder (ea)

PG820 Grinder

The PG820 is the largest in the Husqvarna range of surface preparation and finishing machines. Equipped with Dual Drive Technology™ the PG820 is among the most powerful and efficient machines in the market.

Dual Drive Technology™ gives you higher production rates with fully independent control of both planetary and satellite grinding heads in regards to speed and direction of rotation.

- Industrial strength construction; robust steel frame, strong single-piece aluminum cover
- Ergonomic frame and handle design allows for low impact on operator's body

Item	Description
101927	PG820 32" 230V, 3-phase Grinder (ea)

Hiperlith Lithium Based Densifier not shown

GRINDING

US Saws Dust Buggy Portable Joint Cleanout Saw

The Dust Buggy is a cost effective system for your joint cleanout applications. It can be used with a 7" or 8" blade to reach a maximum cutting depth of approximately 2 inches. Connect the Dust Buggy to a dust collector to maintain a clean job site.

- Power Requirements: 120V, 60Hz

Item	Description
A73234	US Saws Dust Buggy Portable Cleanout Saw w/Metabo Grinder (ea)
A62581	US Saws Dust Buggy Portable Cleanout Saw w/DeWalt Grinder (ea)

- Max RPM: 6,600 rpm
- Max Cutting Depth: 2"

US Saws Premium Tuc-Pointer Assembly

- Small and lightweight system for horizontal or vertical surface crack repair applications and cutting out mortar or grout joints
- Controls dust for cleaner work site when used with optional vacuum system
- 1-1/4" maximum cutting depth
- Assembly includes grinder, shroud, adapter ring, and 8' hose

Item	Description
A37827	US Saws Premium Tuc-Pointer Assembly (ea)

Crac-Vac

The Crac-Vac routs out random cracks to a depth of 11/8 inches. Its patented vacuum housing with internal impeller fan collects and routes the dust to a reusable collection bag. No separate dust collector is required.

- Virtually dust-free tool for routing random cracks, cleaning expansion joints and more
- Heavy-duty grinder provides superior performance
- May be adapted to dolly for joint cleanout, straight-line cutting and patch work
- Popular tool for cutting artificial grout lines and score cuts in stained or overlay-finished decorative concrete

Item	Description
A37841	Crac-Vac (ea)
104485	Crac-Vac with Crac-Vac Dolly (ea)

Racatac with Chest Support and 3" Casters

Operator dolly for use with hand grinding.

Item	Description
16890764	Racatac 01RAC3Cs with Chest Support and 3" Casters (ea)

US Saws 5" Grinder-Vac Assembly

The 5" Grinder-Vac is ideally suited for tight area grinding where larger machines just cannot be used. With the ability to use our premium diamond cup wheels, as well as a variety of Zec abrasive discs, this tool will allow you to tackle numerous applications dust free. This convertible version allows for open area grinding along with grinding up against a wall by simply flipping up the hood. The 8 amp Metabo grinder is economical option for less rigorous use.

- Production Capacity: 75 - 150 sf/hr
- RPM: 10,000 rpm
- Wheel Diameter: 4.5"
- Dimensions: 15.5" L x 11.5" W x 6" H

Item	Description
A76573	US Saws SX65005C Grinder-Vac Assembly w/Grinder & Shroud (ea)
A80784	5" Polish Grinder 700 - 2200 RPM (ea)

US Saws 7" Professional Grinder-Vac Assembly

Use our concrete grinders for dust control to reduce cleanup time, provide better visibility and increase productivity. Our Grinder-Vac line of equipment includes dependable 5", 6", 7", and 9" models for concrete cleaning, planing, coatings removal or other floor finishing preparation work.

The rugged polyurethane dust shroud is a key feature of the Grinder-Vac system. It enables the grinder to be connected to one of the various dust collection systems offered for a more productive, comfortable work environment with less cleanup required.

Item	Description
A38058	US Saws SX60006C 6600 RPM Grinder-Vac Kit (ea)
A35343	US Saws SX60010C 8500RPM Grinder-Vac Kit (ea)
A97717	US Saws SX60006PP 6600RPM Grinder-Vac Kit (ea)
A89699	US Saws SX60006CP 700-2200RPM, 10 amp Grinder-Vac Kit (ea)

Blastrac BL-05-67000C 7" Hand Grinder

The BL-05-67000C is a quality hand-held grinder designed specifically for concrete prep and coatings removal. The heavy-duty design of the BL-05-67000C provides solid performance when grinding for concrete preparation along walls, around protrusions, and those hard-to-access areas, and offers dependability for removing epoxies and mastics when utilizing appropriate grinding disks and wheels.

Item	Description

Ruwac FRV-100

- AV-EX1000 - Class I Group D, Class II Groups F & G
- Single Stainless Steel Venturi
- Retractable grounding reel with stainless steel clamp
- 13 ft² MicroClean BVSC Filter, manual shaker system
- 40 ft² HEPA Filter with Minihelic (optional)
- 2" (50mm) inlet connection with bronze cast deflector
- Inclusive sound suppression, 72 dB
- 9 Gallon, foot lever actuated dustpan
- Counterbalanced Base, 3" heavy duty conductive casters
- Compression cast composite modular housing
- Carbon-impregnated, anti-static 10-6 Ohms

Item	Description
A99203	Ruwac FRV100 Vac (ea)
A88872	Ruwac FRV110 Vac (ea)

Ruwac Pre-Separation System High Efficiency Cyclone

- High-efficiency cyclone pre-separator increased collection capacity and filter life
- Drum tips, eliminating any heavy lifting
- 30 gallon capacity
- 6mm plastic bags contain dust when using the Equalizer Kit
- Grounded connection hose can be attached to any Ruwac vacuum

Item	Description
54387	Ruwac 8" HEC Pre-Separator with Bag Equalizer (ea)
54388	Ruwac 12" HEC Pre-Separator with Bag Equalizer (ea)
54392	Ruwac 12" HEC Pre-Separator with Bag Equalizer and 30 Gallon Tipping Mechanism (ea)
A56383	Ruwac 14" HEC Pre-Separator with Bag Equalizer and 55 Gallon Tipping Mechanism (ea)

Ruwac Pre-Separation System High Efficiency Cyclone with Bagging System

HEC Features:

- High-efficiency cyclone pre-separator increased collection capacity and filter life
- Lifting assembly mechanically raises cyclone from drum and holds it while emptying
- Drum tips, eliminating any heavy lifting
- 30 gallon capacity
- 6mm plastic bags contain dust when using the Equalizer Kit
- Grounded connection hose can be attached to any Ruwac vacuum

Specifications:

- HEC12 – with continuous discharge
- 12" cyclone
- 10 gallon storage hopper
- Gravity drop system for automatic discharge
- Bagging system for standard plastic bags
- Optional continuous feed bagging system.
- 2.75" inlet
- 80 lbs.

Item	Description
A88042	Ruwac 12" HEC Pre-Separator with Bagging System (ea)
A88085	Optional Continuous Feed Bagging System for A88042

Ruwac HEC-XLT with Lifting Assembly

- High-efficiency cyclone pre-separator increased collection capacity and filter life
- Lifting assembly mechanically raises cyclone from drum and holds it while emptying
- Drum tips, eliminating any heavy lifting
- 30 gallon capacity
- 6mm plastic bags contain dust when using the Equalizer Kit
- Grounded connection hose can be attached to any Ruwac vacuum

Item	Description

SCRAPING

National 550 Panther Adjustable Handle Scraper

Perfect for residential and light commercial use, the 550 is the only stripper in the manual operated class with the ability to remove ceramic tile. When combined with National's patented carbide tipped ceramic blade, the 550 has removal capability of some of its larger more expensive competitors.

Item	Description
16561654	National 550 Panther Silver Vein Adjustable Handle Scraper (ea)

National 5280 Self-Propelled Floor Scraper

The lightest of the self propelled group, the 5280 makes up in aggressiveness what it lacks in size. Not to be out done by its larger siblings, the 5280's oscillation head cuts through the most stubborn commercial material.

This Self-Propelled Scraper will remove the worst of today's glued down floors, gummy commercial carpet, VCT, solid vinyl, radial rubber tile, sheet rubber, indoor and outdoor sport surfaces, roofing material, etc. Our exclusive random orbital action machine will clean residues from floors that other machines leave behind.

Has many of the same features as the 6280 Industrial Panther® Self-Propelled Scraper, but the 5280 is more compact and lighter weight creating greater maneuverability.

Item	Description
16601357	National 5280 Silver Vein Self-Propelled Floor Scraper (ea)

National 6280-COMMANDER Industrial Self-Propelled Floor Scraper

Designed for fast pace removal, the 6280 is the industry leader for carpet and VCT removal. Both durable and maneuverable, the 6280 outpaces any scraper in its class. Self-propelled in both forward and reverse, the 6280-COMMANDER's easy to operate hand controls are designed for speed and safety, but also provides all the necessary muscle for tough removals. Easy to operate hand controls for speed and safety.

- Runs on 13 amps, won't trip circuit breakers
- Quick adjust side counterweight
- Rounded front weight that doubles as a debris deflector
- Runs quietly, can be operated on any job site
- Newly designed handle that can be changed into different positions and easily folds to compact design for transportation

Item	Description
16571655	National 6280-COMMANDER Silver Vein Self-Propelled Walk-Behind Scraper (ea)
A38023	National 6280-500 Swivel Head Attachment for Razor Blades (ea)
A83028	National 6280-505 Swivel Head Attachment for Standard Blades (ea)

National 6280HD-COMMANDER Heavy Duty Hydraulic Self-Propelled Floor Scraper

With its patented swivel head attachment, the 6280HD-COMMANDER scraper has earned the title "most aggressive walk behind floor scraper in the industry". The 6280HD-COMMANDER efficiently removes carpets, glues, mastic, VCT, hardwoods in addition to most ceramics. Designed for maximum torque to remove hard goods, the 6280HD-COMMANDER plows through most materials!

- Variable speed, up to 30 feet per minute
- Oscillating action drive rotates the cutting head and carbide shank in a circular motion. This efficiently cuts through multiple substrate materials and increases blade longevity. This reduces unwanted stress, minimizing overall maintenance.
- Angle attachments that come in 22° and 30° angle the cutting head or carbide shank to where the material comes up the easiest

Item	Description
16611358	National 6280HD-COMMANDER Silver Vein Heavy-Duty Walk-Behind Self-Propelled Floor Scraper (ea)

FAST, EASY LEASE/PURCHASE OPTIONS

When responding to the job "now" is critical, but you need the equipment to do it right, Aramsco has alternatives to fit your budget and timeline. Aramsco partner Marlin Equipment Finance has committed to fast credit decisions for all applications, with terms that give you greater flexibility in answering your immediate cash needs.

Call Aramsco for details at 800.767.2616.

SCRAPING

National 5625 Propane-Powered Ride-On Floor Scraper

The 5625 boasts a 25 hp water cooled Kawasaki engine with the lowest emissions output in the industry. Its unique design allows the 5600 to plow through material without hesitation. Utilizing its high torque engineering, the 5600 produces removal rates beyond the competition.

Item	Description
16621359	National 5625 Silver Vein Propane-Powered Ride-On Floor Scraper (ea)
16631350	National 5625 Silver Vein Propane-Powered Ride-On Floor Scraper with Hydraulic Slide Plate (ea)

National 5700 All Day Battery Ride-On Floor Scraper

One charge provides 6-8 hours of real time work hours; Nothing on the market compares! At the end of the day simply plug into a standard 115 volt outlet and in the morning the 5700 is recharged and ready for another hard day of work. The 5700 is simply the industry's best scraper.

Considering the extensive hours operators occupy the driver seat, National's Ride-On machines are engineered with comfort and longevity in mind! Appropriately named the All Day Battery Ride-On removal and floor preparation machine- this machine has the ability to operate through an average day without requiring a battery recharge, or electrical cord assistance.

Item	Description
16541652	National 5700 Silver Vein All Day Battery Ride-On Floor Scraper (ea)
16651352	National 5700DL Silver Vein All Day Battery Ride-On Floor Scraper with Hydraulic Slide Plate (ea)

National 7700 Ride-On All-Day Battery Floor Scraper

The 7700 is the bigger, heavier and faster version of the 5700. With many similarities and the rugged professional standards, it is designed with more weight band built to remove difficult material; while still using National's industry leading battery configuration. The 7700 includes a 6700 dual lift hydraulic slide plate. This adds weight to the front of the machine and allows the operator to easily adjust the height and angle of the slide plate without turning any wrenches! This precise angle adjustment of the cutting head with hydraulic control, keeps the operator safely seated while increasing blade life and adding 15 – 25% productivity. The unique handle design and valve system allows precise and accurate control of the machines movement and speed.

Item	Description
16661353	National 7700 Silver Vein Ride On Scraper, 200 amp (ea)

National 8000 Propane-Powered Ride-On Floor Scraper

This heavy-duty propane powered scraper sets the operational standard for high removal rates. Difference from other scrapers that are powered by a Hydrostat drive system, National's 8000 is powered by a Hydraulic Drive System. This in turn benefits the 8000 with consistency, and continuous torque to result in speed, power, more productivity and high removal rates.

- 25HP, liquid-cooled Kawasaki engine is engineered with National's exclusive catalytic design. Providing the lower emissions in the industry, well below industry standards!
- Unique quick change swivel head with exclusive 6700 hydraulic-powered adjustable slide plate increases the down pressure for maximum blade settings on all floor surfaces and material types

Item	Description
16641351	National 8000 Silver Vein Propane Powered Scraper (ea)

Ceramic Tile Removal Blades/Shanks

Item	Description
A37264	National 7079-2 Blade with Carbide, 2"x6" (ea)
A37265	National 7079-4 Blade with Carbide, 4"x6" (ea)
A37266	National 7079-6 Blade with Carbide, 6"x6" (ea)
A87983	National 7072-2 4"x2" Straight Shank with Carbide Tip (ea)

DUST COLLECTION

Blastrac BDC-1112 110v Compact Dust Collector

The Blastrac BDC-1112 compact dust collection system is ideal for hand tools and small grinding machines. This small light weight industrial vac is made of strong polyester making it light to carry, damage resistant, and easy to clean.

- 110 volt
- 140 CFM
- 105 in H2O
- 2.25" inlet
- 20" x 19" x 26"

Item	Description
A64726	Blastrac BDC-1112 Compact Dust Collector (ea)

Blastrac BDC-1216 Dual-Motor Dust Collector

The Blastrac BDC1216 is specifically designed for the tough environment of concrete dust collection, however it can be used for any dry material handling needs. The high strength plastic construction will not dent or rust and is ideal for the professional contractor. Two motors deliver superior power while the specially designed filter and manual filter shaker provide extended operation without exposure to the filtration system. The dual motor system produces a maximum air flow of 190 CFM and a maximum static pressure of 84 Inches of H2O.

Item	Description
A35215	Blastrac BL-BDC-1216 Dual-Motor Dust Collector (ea)

Blastrac BDC-1330 Dust Collector

The Blastrac BDC-1330 heavy-duty dust collection system is remarkably quiet and designed for multi-purpose use with medium shot blasters, scarifiers, grinders and polishing machines. Built mainly of steel, the BDC-1330 is tough and damage resistant, constructed for professional use. The dust bin dismounts easily for debris disposal and with a capacity of 143 lbs.

This powerful industrial vacuum is also perfect for contractors who must utilize a dust collection system to satisfy environmental concerns.

Item	Description
A86538	Blastrac BDC-1330 Dust Collector, 230V, Single Phase (ea)
A94917	Blastrac BDC-1330 Dust Collector, 240V/60HZ, Three Phase (ea)

Blastrac BDC-3140P Heavy-Duty Dust Collector

The BDC-3140 is an advanced unit that helps eliminate most all of the airborne dust and particulate generated with grinding and polishing equipment. This powerful industrial vacuum is also perfect for contractors who must utilize a system that satisfies environmental concerns. The BDC-3140P offers high performance with relatively low energy consumption.

The motor produces a maximum air flow of 300 cfm, with a maximum static pressure of 90. The easily replaced filters are ensured long life through the fully automatic, air-pulse cleaning system. The 200 lb. capacity wheeled dust-bin easily dismounts for quick debris disposal.

Item	Description
A78540	Blastrac BDC-3140P Heavy-Duty Dust Collector (ea)

Blastrac BDC-66 Dust Collector

The BDC-66, a six cartridge auto pulse dust collector, is preferred by professional contractors requiring continuous operation and high performance. It is designed for high productivity, easy dust handling and ease of maintenance.

The powerful motor and blower provide increased airflow and lift. The innovative silencer reduces noise and contains a slide gate to reduce vacuum when used with smaller equipment. The side access panel allows unfettered access to filters. Couple this with the new filter retaining system, and filter maintenance/changing is fast and easy.

The auto pulse cleaning system helps prolong filter life as the BDC-66 delivers a maximum airflow of 1294 cfm and static pressure of 20.5 inches. The BDC-66 has four dust handling options: 34 gallon dust bin, Longopac, 15 gallon and 32 gallon dust bag. With a state of the art design, heavy duty components and world class manufacturing, the BDC-66 is easy to maneuver, has a long service and provides a low operating cost.

Item	Description
1615159	Blastrac BDC-66 Dual Voltage 230V/480V 3-Phase Dust Collector (ea)

Blastrac BDC-99 Dust Collector

The BDC-99, a nine cartridge auto pulse dust collector, is preferred by professional contractors requiring continuous operation and high performance. It is designed for high productivity, easy dust handling and ease of maintenance. The powerful motor and blower provide increased airflow and lift.

The innovative silencer reduces noise and contains a slide gate to reduce vacuum when used with smaller equipment. The side access panel allows unfettered access to filters. Couple this with the new filter retaining system, and filter maintenance/changing is fast and easy. The auto pulse cleaning system helps prolong filter life as the BDC-99 delivers a maximum airflow of 1561 cfm and static pressure of 26.5 inches. The BDC-99 has three dust handling options: 34 gallon dust bin, Longopac, 15 gallon and 32 gallon dust bag. With a state of the art design, heavy duty components and world class manufacturing, the BDC-99 is easy to maneuver, has a long service and provides a low operating cost.

Item	Description

SCRAPING/WET ABRASIVE BLASTING

Blastrac BMS-L1950 Ride-On Floor Scraper

The BMS-L1950 is an economical, entry-level floor scraping machine. Designed for large area surface removal, this extremely mobile, highly productive, ride-on floor scraper will make short work of tough floor removal jobs. Remove a wide variety of thick coatings, floor coverings, and waterproofing membranes with the BMS-L1950, including carpet, VCT, tough ceramic tile and hardwood.

A compact design with large diameter wheels offers greater efficiency with increased travel speed, and precision hydraulic steering gives the operator optimum control and maneuverability. A patented "floating" blade design with heavy-duty pivot points, on the 3-action blade clamp, insures the best performance from multiple blade types.

The 25 hp Kohler engine delivers the power that's demanded for those stubborn and time consuming floor removal jobs. The BMS-L1950's weight can be reduced by 565 lbs. when necessary for less demanding work.

Item	Description
A78713	Blastrac BMS-L1950 Ride-On Floor Scraper (ea)

Blastrac BMS-H2750 Ride-On Floor Scraper

The BMS-H2750 is one of the quick and agile high productivity, ride-on floor scrapers designed for large area surface removal. The BMS-H2750 significantly reduces the amount of time and effort required to remove a wide variety of thick coatings, floor coverings, and waterproofing membranes. Everything from carpet and tough ceramic tile to hardwood and VCT are no match for this little brute of a machine.

Item	Description
A78712	Blastrac BMS-H2750 Ride-On Floor Scraper (ea)

Blastrac BMS-T4200

The BMS-T4200 is the unit for high productivity, low emissions, and reliability. Designed for large area surface removal, the BMS-T4200 significantly reduces the amount of time and effort required to remove a wide variety of thick coatings, floor coverings, and waterproofing membranes. Everything from carpet and the toughest ceramic tile to hardwood and VCT are no match for this versatile heavy-duty machine.

Maximum torque is produced through the 42 hp Hyundai engine giving the BMS-T4200 the power that is needed for the most grueling and time consuming floor removal jobs. Exhaust scrubbers reduce emissions to meet or exceed CARB and EPA requirements. The precision hydraulic steering gives the operator optimum control in maneuvering, and an auxiliary hydraulic system can power hydraulic attachments such as diamond grinders or rotary cutters.

Utilizing a patented "twisting" blade-bar design (edge of blade stays in contact with the floor more consistently), the BMS-T4200's rear tires can roll over debris without the blade rotating off the target working area. The blade remains flatter to the surface to continue scraping with less reverse maneuvers for "re-bites" during removal jobs.

Item	Description
A72121	Blastrac BMS-T4200 Ride-On Scraper (ea)

Torbo M120 Wet Abrasive Blasting Unit

The smallest machines in the Torbo product line were developed to fill the specific needs that larger, heavier equipment could not fulfill. Designed for the gentle/sensitive blasting market, these machines have no equal.

The tank capacity is 4.2 cu. ft. (120 ltrs.), which allows for maximum mobility, as needed. Whether faced with cleaning sandstone monuments, preservation or restoration work, cutting designs into glass, or removal of graffiti, these machines will do the job. Torbo's ability to use any media heavier than water, which includes all of the "natural" abrasives, eliminates the concerns about efflorescence or time-delayed chemical reactions. The infinitely variable adjustments of the systems allow for job specific risk control.

Item	Description
32101	Torbo M120 Wet Abrasive Blasting Unit (ea)
21166	Torbo Mix Installed (ea)

Torbo XL320 Wet Abrasive Blasting Units

The Big Boy of the Product line was designed for heavy commercial and industrial work. Even though it was designed for the high production market, detailed and softer applications are intrinsic to all Torbo products.

The tank capacity is 12 cu. ft. (320 ltrs.). Larger sizes and trailer mounted units available as custom design. Whether faced with cleaning sandstone monuments, preservation or restoration work, cutting designs into glass, or removal of graffiti, these machines will do the job. Torbo's ability to use any media heavier than water, which includes all of the "natural" abrasives, eliminates the concerns about efflorescence or time-delayed chemical reactions. The infinitely variable adjustments of the systems allow for job specific risk control.

Item	Description
21810	Torbo XL320 Wet Abrasive Blasting Unit (ea)
21167	Torbo Mix Installed (ea)

HAND PROTECTION

SpiderGrip® Crinkle Dip Latex Glove

Specially-textured latex on the palm side gives an exceptional liquid-repellent grip. The knitted back provides flexible breathability to keep hands comfortable.

- Seamless design
- Puncture resistant
- Liquid-repellent palm

Item	Description
30023	SpiderGrip Crinkle Dip Gloves, Large (dz)
30024	SpiderGrip Crinkle Dip Gloves, X-Large (dz)

String Knit Gloves with Dots

Item	Description
30018	Dotted String Knit Gloves Two Sided Natural (dz)
30017	Dotted String Knit Gloves One Sided Natural (dz)

Leather Palm Work Gloves with Safety Cuffs

Item	Description
30055	Economy Leather Palm Work Gloves (dz)
30655	Heavy-Duty Double Leather Palm Work Gloves (dz)

Brown Jersey Gloves

Item	Description
30005	Men's Brown Jersey Work Gloves (dz)

Cotton Canvas Gloves

Item	Description
30000	Cotton Canvas Work Gloves (dz)

Grain Cowhide Straight Thumb Unlined Drivers Gloves

Item	Description
30076	Grain Cowhide Straight Thumb Unlined Drivers Gloves, Size Large (dz)
30077	Grain Cowhide Straight Thumb Unlined Drivers Gloves, Size Large (dz)

Kevlar String Knit Gloves

Item	Description
30350	Kevlar Regular Weight String Knit Gloves with Knit Wrist (dz)
30318	Kevlar String Knit with PVC Dots on Both Sides (dz)

Black Nitrile Industrial Grade Gloves

- Industrial grade
- Powder-free
- Textured finger tips
- Ambidextrous

Item	Description
16420933	Disposable Industrial Grade Black Nitrile Gloves, Powder Free, 4 mil, Size Large (100/bx)
16430934	Disposable Industrial Grade Black Nitrile Gloves, Powder Free, 4 mil, Size X-Large (100/bx)
A96654	Black Powder-Free, Nitrile Glove, 5 mil, Large (100/bx)
A96655	Black Powder-Free, Nitrile Glove, 5 mil, X-Large (100/bx)

Duraskin™ Blue Nitrile Industrial Grade Gloves

Duraskin™ powder-free nitrile gloves provide excellent barrier protection while giving you, the user, the best dexterity and protection for any application or budget.

Item	Description
16480737	Industrial Grade Blue Nitrile Gloves, Powder Free, 3.5 mil, Size Large (100/bx)
16450835	Industrial Grade Blue Nitrile Gloves, Powder Free, 6 mil, Size Large (100/bx)

Disposable Powder-Free Nitrile Exam Gloves

- Affordable performance
- Beaded cuff and textured fingertips
- Snug and secure fit

Item	Description
A73758	Powder-Free, Nitrile Glove, Large (100/bx)
A73759	Powder-Free, Nitrile Glove, X-Large (100/bx)

Nitrile Chemical Gloves

- Diamond finish palm for safer handling of wet objects
- Excellent snag, puncture, abrasion, and cut resistance

Item	Description
30560	Green Nitrile Flock Lined Glove, Size X-Large (12/pk)
30559	Green Nitrile Flock Lined Glove, Size Large (12/pk)
30556	Green Nitrile Unlined Glove, Size X-Large (12/pk)
30555	Green Nitrile Unlined Glove, Size Large (12/pk)

Economy Flock Lined Yellow Latex Gloves

Resists many acids, detergents, salts, caustics and oils. 12 per pack.

- 12" length for full coverage
- Beaded cuff and textured fingertips
- Flock lined for comfort

Item	Description
30086	Yellow Latex, Flock Lined Glove, Size 9 (dz)

RESPIRATORY PROTECTION

5500 Series Half-Mask

- Comfortable, lightweight, non-allergenic elastomeric facepiece
- Compatible with all North cartridges and filters (cartridges not included)

Item	Description
52484	5500 Series Half-Mask Respirator, Medium (ea)
52572	5500 Series Half-Mask Respirator, Large (ea)

7700 Series Silicone Half Facepiece

- Lightweight, low profile design for greater worker acceptance
- Fully certified by NIOSH, when used with North cartridges and/or filters (cartridges not included)

Item	Description
52471	7700 Series Half Facepiece Respirator, Medium (ea)
52472	7700 Series Half Facepiece Respirator, Large (ea)

5400 Series Full Facepiece

- Soft, lightweight elastomeric full facepiece
- Compatible with all North cartridges and filters (cartridges not included)

Item	Description
52550	5400 Full Facepiece Respirator, Medium/Large (ea)

Survivair Opti-Fit PAPR Complete **Honeywell**

- Lightweight unit will not slow worker efficiency
- Low-cost, high-efficiency (HE) filter consolidates inventory and reduces costs
- The battery pack is water-resistant and contoured for wearer comfort

Item	Description
69051	Survivair Opti-Fit PAPR Complete, Medium (ea)
52601	PAPR HEPA Filter 108044 (ea)

North Cartridges and Filters

Item: 52473
Particulate Filters, P100

Item: 62507

Eye, Head & Face Protection

Aegis is500

Sporty, comfortable and lightweight, with UV protection and anti-fog coating. ANSI-standards compliant.

Item	Description
41443	Aegis is500 Clear Lens w/Black Frame (ea)
41449	Aegis is500 Mirror Lens w/Black Frame (ea)

Aegis is350

Flexible, non-slip temples, with soft, clear nose pads. Polycarbonate lens for impact resistance, with anti-fog coating. ANSI-standards compliant.

Item	Description
41475	Aegis is350 Clear Lens w/Black Frame (ea)
41476	Aegis is350 Gray Lens w/Black Frame (ea)
41478	Aegis is350 Amber Lens w/Black Frame (ea)

Aegis is300

Wraparound design for peripheral protection. Impact resistant polycarbonate lens; UV protection; ANSI-standards compliant.

Item	Description
41462	Aegis is300 Clear Lens w/Clear Frame (ea)
41484	Aegis is300 Gray Lens w/Black Frame (ea)

Aegis is200

Economical, adjustable, and comfortable, with impact-resistant polycarbonate lens that offers UV protection. ANSI-standards compliant.

Item	Description
40133	Aegis is200 Clear Lens w/Black Frame (ea)

Aegis is150

Over-the-glasses design with anti-fog coating. Polycarbonate lens for impact resistance and UV protection.

Item	Description
A98960	Aegis is150 Clear Lens w/Clear Frame (ea)

Aegis GSV Goggle

- Sleek, sporty, low-profile style
- Indirect-vented splash protection
- Anti-fog polycarbonate lens

Item	Description
A98958	Aegis GSV Sporty Goggles (ea)

Aegis GSS Goggle

- Low-profile, modern design
- Soft-seal face piece for a secure and comfortable fit
- Indirect-vented

Item	Description
A98957	Aegis GSS Comfort Fit Heavy-duty Goggles (ea)

Aegis GS Goggle

- Indirect-vented splash protection
- Fits over most prescription lenses
- Anti-fog coating

Item	Description
40035	Aegis GS goggle (ea)

Uvex Genesis XC

- Extended wraparound lens for extra cheek and extra side coverage

Item	Description
A30481	Genesis XC Clear Uvextreme Lens w/Black Frame (ea)
A30482	Genesis XC Gray Uvextreme Lens w/Black Frame (ea)

Aegis Hard Hats

- Aegis hard hats are lightweight and durable
- 4-point ratchet suspension easily adjusts for a perfect fit
- Complies with ANSI Z89.1-2003 standards Type 1, Class E, and G

Item	Description
41600	Aegis White Apex Hard Hat (ea)
41601	Aegis Yellow Apex Hard Hat (ea)
41602	Aegis Blue Apex Hard Hat (ea)

North Peak Hard Hats

A versatile and dependable design, with grooved HDPE outer shell, rain trough and accessory slots. 6-point, nylon suspension, with pin lock adjustment.

- 6-Point Nylon Ratchet Suspension

Item	Description
40527	Hard Hat with Ratchet - White (ea)
40528	Hard Hat with Ratchet - Yellow (ea)
40525	Hard Hat with Ratchet - Navy Blue (ea)

Aegis Face Shield and Headgear

Item	Description
40534	Aegis 8" x 15.5" Face Shield only (ea)
40536	Aegis Black Aluminum Face Shield Bracket only (ea)

Aegis Face Shield and Ratcheting Headgear

Item	Description
40530	Aegis Standalone Ratcheting Headgear only (ea)
40534	Aegis 8" x 15.5" Face Shield only (ea)

FOOT & EAR PROTECTION | ERGONOMICS | FIRST AID

Rubber Slush Boots

17" rubber, over-the-shoe legging boot with top strap, buckle adjustment, cotton net lining, recessed heel, heavy rigid sole, and overlapped construction.

Item	Description
10011	Rubber Slush Boots, Size 11 (pr)
10012	Rubber Slush Boots, Size 12 (pr)

57586	E-Z Tape Blue Painter's Tape, 2" x 60 yd (24 rl/cs)

Chemsafe™ RamTack Spray Glue

- A strong high-tack, translucent web spray adhesive
- Specially formulated for the Abatement and Restoration contractor
- Effectively bonds poly sheeting to walls as well as providing a more permanent seal when bonding poly to poly
- Contains no methylene chloride

Item	Description
57002	Ram Tack Spray Glue, net wt. 12 oz. (12 cans/cs)

Chemsafe™ Citrus Solvent Degreaser

- Mild citrus aroma with excellent degreasing power
- Less than 10% VOC content, 50-state compliant*
- Contains no chlorinated solvents or ozone depleters
- Dual-action valve for light & blast spray
- Non-conductive to 20,000 volts

Item	Description
57009	Citrus Solvent Degreaser, net wt. 14 oz. (12/cans/cs)

*For facility use in California Air Districts under SCAQMD's Rule 1171 Solvent Cleaning Operations, limited quantity aerosol use applies.

Carpet Shield

- Self-adhering
- Easy application and removal
- Provides a professional image

Item	Description
56188	Carpet Shield, 24" x 200' (rl)
56189	Carpet Shield, 36" x 250' (rl)
56291	Carpet Shield Applicator, 24", 30", 36" (ea)

Floor Shield

For use on tile, marble, laminate, vinyl, factory-finished hardwood floors, and countertops.

Item	Description
56190	Floor Shield, 24" x 200' (rl)

Clean Mats

Tacky walk-on surface cleans dust and dirt from shoes prior to entering or before exiting the jobsite.

Item	Description
73252	Clean Mats, 24" x 36", Blue, 30 layers per mat (4/cs)
A29976	Clean Mats, 18" x 45", Blue, 30 layers per mat (4/cs)
56191	Clean Mats, 24" x 36", White, 30 layers per mat (4/cs)
40093	Clean Mats, 18" x 45", White, 30 layers per mat (4/cs)

Dirt Grabber

Features a sturdy, reusable platform that holds it securely to floor surfaces such as carpeting, tile, concrete and more.

Item	Description
56193	Dirt Grabber Mat and Backer Board, 25 1/2" x 31 1/2" frame w/ 24" x 30" Sheets (ea)
56194	Dirt Grabber Mats, 24" x 30" Refills, 30 layers per mat (4/cs)

Builder Board

Heavy-duty, water-resistant temporary floor protection repels water, mud, paint, and more; allows vapors to escape for maximum breathability.

Item	Description
A20719	Builder Board Heavy Duty Fiberboard Flooring, 38" x 100' (rl)

Kraft Paper

Durable, construction-grade kraft paper that is economical and environmentally friendly.

Alternative to canvas and plastic drop cloths and is also non-staining. 100% recyclable and a preferred alternative to red rosin paper.

Item	Description
16850707	Kraft Paper, 35" x 144' (rl)

LIGHTING | ELECTRICAL

Outdoor Vinyl Extension Cords

OSHA-approved heavy duty, round vinyl extension cords. Molded-on and bonded vinyl plugs and connectors resist breaking or pulling off cord.

- Double-insulated
- Non-marring
- 125V/15A rating

Item	Description
58006	50 ft. Single Tap 12/3 Extension Cord (ea)
58007	100 ft. Single Tap 12/3 Extension Cord (ea)

WobbleLight

- Self-righting – won't fall over
- Floating shock system – protects bulb
- Convection and fan cooled – won't burn
- Durable plastic housing – won't bend
- Tough polycarbonate dome – won't break
- No set-up required – just plug it in
- Long-lasting – bulbs have lasted years in the field
- String several together in series – plug power tools into it
