

Dust Containment Systems

HEAVY-DUTY VACUUM

BDC-99

The BDC-99, a nine cartridge auto pulse dust collector, is preferred by professional contractors requiring continuous operation and high performance. It is designed for high productivity, easy dust handling and ease of maintenance.

The powerful motor and blower provide increased airflow and lift. The innovative silencer reduces noise and contains a slide gate to reduce vacuum when used with smaller equipment. The side access panel allows unfettered access to filters. Couple this with the new filter retaining system, and filter maintenance/changing is fast and easy.

The auto pulse cleaning system helps prolong filter life as the BDC-99 delivers a maximum airflow of 1561 cfm and static pressure of 26.5 inches. The BDC-99 has three dust handling options: 34 gallon dust bin, Longopac, 15 gallon and 32 gallon dust bag. With a state of the art design, heavy duty components and world class manufacturing, the BDC-99 is easy to maneuver, has a long service and provides a low operating cost.

Easy Hand Click System

SPECIFICATIONS:

Static Pressure: Maximum 26.5 in H₂O

Air Flow: 1561 cfm maximum

Dust Bin Capacity: 34 gal (129L)

Voltage: 460V 3 ϕ , 60 Hz

Amperage: 63A

Power Cord: 50 ft. (15.24m)

Dust Hose Connection:

5 in. (127mm), 6 in. (150mm)

Dimensions:

L 68 in. x W 34 in. x H 65 in.

(1731mm x 866mm x 1643mm)

Weight: Net 1146 lbs (520kg)

FEATURES AND BENEFITS:

- Standard silencer on top for low sound level
- Automatic pulse jet cleaning system
- Large dust bin option of 34 gallons with easy hand click system to remove the dust bin
- Ergonomic lifting point on top of the machine for easy transport
- All components are inside the body and frame so no risk of damage during work and transportation
- On-board air pistol for cleaning purpose
- Continuously working even while changing the big bag

Always wear appropriate eye, ear and respiratory protection for the application, as specified by OSHA regulations and your employer. Never operate or maintain equipment before reading and understanding the instructions for operation and maintenance. Obey all safety signs and instructions while operating or maintaining equipment.
