

# SCARIFIER BMP-335EHY

Electric Motor  
460V, 3Ø, 60Hz, 32 Amp

To Push

Working Speed:  
Manual

Weight: 895 lbs.

## MAIN ASSETS:

- Heavy weight for increased scarifying performances
- Dust free (when connected to any Blastrac Dust Collector)
- 2 independent hydraulic motors: 2hp drive motor/15hp scarifying motor.
- New foot pedal equipped drive system. Machine can be easily moved to site without power. When power is on, machine is moving forward automatically, no need to push it, even when going up a hill!
- Adjustable braking device
- Double, micrometric adjustment of the scarifying depth: no risk of underground deterioration, better precision
- Comfortable to use, easy to move, no vibrations
- Several optional tools for each different application

## SPECIFICATIONS:

- Dimensions: (L x W x H) 59" x 24" x 37.5"  
 Working Width: 13.2 in.  
 Performance: up to 570 sq. ft./hr.  
 Working areas: Marking removal on airports and roads, preparation of large surfaces: etching, cleaning, coating removal, grooving, descaling, derusting (ship decks, tanks)
- Motor power: Scarifying motor 15hp  
 Drive Motor 2hp
- Scope of Supply: BMP-335EHY Scarifier / Users Manual / Complete drum with shafts, flails, spacers
- Options: Wide selection of different tools
