

LEED v2.2 / v3.0 VERIFICATION DOCUMENT

This letter, written by a third party LEED Accredited Professional, verifies that the **Convergent Concrete Technologies** penetrating concrete sealer can help project teams achieve **LEED® Certification**. This product is a water-based non-emitting sealant, which complies with South Coast Air Quality Management standards and **always satisfies LEED’s low-VOC materials requirements and thus always qualifies toward LEED IEQ Credit 4.2 (Adhesives and Sealants)**.

Environmental Feature	LEED v2.2		LEED v3.0	
	LEED Credit	Points	LEED Credit	Points
Low-Emitting Adhesives and Sealants	IEQ 4.2	1	IEQ 4.2	1

Some of the other environmental features of this product include:

- Shipped in recycled or recyclable containers
- Concentrated material requires lower application rate
- Concentrated material requires less material, thus lower shipping costs
- Application requires no run-off into wastewater or ground water
- Permanent, no stripping or reapplication is required
- Reduced cleaning chemical usage—neutral cleaner or water is usually sufficient
- Reduces thaw damage in exterior applications
- Prolongs the life of external masonry structures
- Significantly reduces maintenance and repair work

This product has been reviewed by a third party **LEED Accredited Professional**. If you have any inquiries about the environmental quality of this product or if you have any inquiries about how this product qualifies for LEED Certification Credits then please feel free to contact us.

Thank You and My Best,
