

INDUSTRIES SERVED

Marine Industry

IBIX® units are indispensable for professionals in the boating and ship-building industry. For removal of coatings on fiberglass, wood and steel.

Building Restoration

Our wet and dry micro-air abrasion systems designed for multi-use abrasive media, are perfect for cleaning up fire and soot or flood and water damage.

Historic Preservation

For restoring delicate structures, historical assets, statues, antiques and furniture. For use on brick, stone, marble, concrete and even fragile surfaces such as travertine.

Transportation Restoration

Restoration for trains, airplanes, automobiles, tractors and motorcycles. Powerful enough to remove paint and rust without damaging the surface with no warping.

Plant Maintenance

Industrial plant maintenance such as power plants, steel plants, manufacturing and heavy industry are no match for the power of IBIX.

Infrastructure

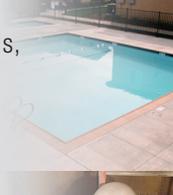

IBIX systems are suitable for all of your surface preparation needs for roads, bridges, airports, ports, parking facilities, power plants and waste treatment plants.

Concrete World

For restoring and coating concrete floors, pools, bridges, industrial buildings, airports, parking garages and harsh environments like factory flooring or chemical and water plants.

Pipeline Industry

Our flame coating system is the only system of it's kind, capable of coating virtually any bend or angle, particularly useful in the oil and gas industry.

REVOLUTIONARY SURFACE TECHNOLOGIES

Off-Shore & On Board Maintenance

Lightweight aluminum construction make our units a portable one-man operation.

Fire & Mold Remediation

Our systems deliver a precise, consistent air and media flow for a smooth surface finish with very low air volume requirements.

Historic Assets

As a member of the Restoration Society we work with Historical and Government entities to preserve our heritage for the next generation.

Restoring Planes...Train...Automobiles

Powerful enough for professional restoration experts, with the ease of operation for enthusiasts.

Power, Steel & Manufacturing Plants

Minimal dusting improves health and safety for the operator and the environment.

Heavy Duty Environments

The backpack and lance attachment are extremely valuable for on-site maneuverability.

Industrial World

Effective on virtually any surface including; concrete, masonry, stone, steel, aluminum, stainless steel, wood, glass, marble and composite materials.

Oil & Gas Industry

IBIX is extremely valuable for enhancing bond adhesion and preventing long term corrosion.

The Easy Grout is our battery driven grout system, available in three sizes. Nozzles available for injection, micro-injection, pumping and spraying applications.

IBIX carries a complete line of accessories including the Lance Extension, Backpack, and interchangeable nozzles.

Supplier of Green Abrasive Media & Polymers
Our complete line of abrasive media and polymers for flame coating are 100% safe and non-toxic to the operator and environment and are regulatory compliant.
