

Ruwac BAGGER VAC SERIES DIRECT BAGGING SYSTEM VACUUMS

**WHERE POWERFUL, PORTABLE
FILTRATION MEETS DUST-FREE DISPOSAL**

Ruwac's machines are durable, long-lasting and maintenance-free thanks to a variety of unique features that no other vacuum manufacturer can compete with -- Such as the Bagger Vac! Featuring an ultra rugged housing and enough suction to power a central vacuum system, the Bagger Vac Series is continuous and intermittent duty operation that makes it ideal for everything from general housekeeping, point of source extraction and industrial shop maintenance. Ruwac's exclusive direct bagging system ultimately acts as a collection source for the vacuum, ensuring that users don't come in contact with its contents while making disposal quick and maintenance-free!

BAGGER VAC SERIES FEATURES

- Allows for dust-free clean-up
- Provides zero contact with contaminants
- Universally compatible with any bag
- External gravity drop system for continuous discharge from storage hopper

**Attaches in 3
Easy Steps!**

...IN ADDITION TO

- Powerful operation picks up the finest of dusts
- Industry-leading MicroClean Filtration
 - Prevents premature clogging
 - Eliminates the need for costly filter replacements
- Fully grounded for anti-static build-up
- Durable compression cast composite housing that will never rust or dent -- Guaranteed to last a lifetime!
- Upgradeable to HEPA and ULPA filtration!

BAGGER VAC SERIES DIRECT BAGGING SYSTEM VACUUMS

THE RED LINE DIRECT BAGGING

FEATURES

- Intermittent duty
- Ideal for general house-keeping, work place maintenance and point of source extraction
- Fully grounded to protect against static build-up
- Single phase motor operation
- Powerful filtration in a compact vacuum size
- The most mobile out of any of Ruwac's Bagger Vac series lines

WNS1000	WNS2220	WS2220	WS2320
112 CFM	200 CFM	220 CFM	288 CFM
7.9 Hg"	7.2 Hg"	7.2 Hg"	5.5 Hg"
110 V	110 V	110 V	110 V / 220 V
1.6 Hp	3.2 Hp	3.2 Hp	4 Hp
13 Sq. Ft. filter	13 Sq. Ft. filter	13 Sq. Ft. filter	28 Sq. Ft. filter

WORKHORSE DIRECT BAGGING

FEATURES

- Continuous duty
- Ideal for point of source extraction and general shop maintenance
- Fully grounded and sealed to protect against static build-up
- Single or three phase motor operation
- Industry-leading MaxFlo multi-stage turbine provides more vacuum using less Hp

DS1000	DS1150	DS1220	DS1221	DS1400	DS1750
135 CFM	180 CFM	180 CFM	180 CFM	300 CFM	288 CFM
5.5 Hg"	5 Hg"	5.7 Hg"	5.7 Hg"	6.2 Hg"	8.2 Hg"

13 Sq. Ft. filter	28 Sq. Ft. filter	28 Sq. Ft. filter			

BAGGER VAC SERIES DIRECT BAGGING SYSTEM VACUUMS

ALTERNATIVE POWER DIRECT BAGGING

AV1000	AV2000
150 CFM	275 CFM
13 Hg"	16 Hg"
13 Sq. Ft. filter	28 Sq. Ft. filter
Requires 1/2" unrestricted airline, 60 CFM and 71 PSI	Requires 1" unrestricted airline, 100 CFM and 100 PSI

FEATURES

- Air powered
- Intermittent duty
- Ideal for remote usage where power cords and electricity are unavailable or not an option
- Cordless, rugged design built to withstand outdoor elements
- Inclusive sound suppression for quiet operation

MICROCLEAN FILTRATION

Ruwac's industry-leading MicroClean filtration system outlasts and outperforms all others with a proven pleated style and external manual shaker. Combined with more usable surface and a lower face velocity, this filter prevents dry materials from prematurely clogging inside your direct bagging vacuum system.

- 99.99% efficient at 0.5 microns
- Proven pleated design
- 3-year filter guarantee

HEPA & ULPA OPTIONS

In addition to Ruwac's premier MicroClean filtration technology, our vacuums also have the option to upgrade to HEPA or ULPA. Since the primary MicroClean filter is so efficient, only clean air sees the filter and the result is both purified air and the elimination of costly HEPA replacements.

- DOP tested and certified
- Class H14 HEPA:
99.997% efficient @ 0.3 microns
- Class U15 ULPA:
99.997% efficient at 0.1 microns

BAGGER VAC SERIES DIRECT BAGGING SYSTEM VACUUMS

ACCESSORIES & OPTIONS

Silo Vacuum Systems

OPTIONAL: Silo vacuum systems available with the same great features as Ruwac's Red Line, Workhorse and Alternative Power series, but with a 30 or 55 gallon drum collection capacity.

HEC-DB Pre-Separator

OPTIONAL: Collect 97% of debris before reaching the vacuum with Ruwac's HEC-DB. Increases filter life. Direct bagging system for dustless cleanup and minimal contact with contents. Very portable.

Portable Vacuum Systems

OPTIONAL: Portable vacuum systems available with the same great features as Ruwac's Red Line, Workhorse and Alternative Power series, but with a 9 gallon foot-actuated dustpan.

HEC-XLT Pre-Separator

OPTIONAL: Collect 97% of debris before reaching the vacuum with Ruwac's HEC-XLT. Increases filter life. 30 & 55 gallon drum. Tipping drum and lifting assembly makes emptying easy. Very portable.

Overhead Cleaning Kit

OPTIONAL: Accessory package 1560ODEX includes: 9" aluminum wall brush; 4 - 6" aluminum pipe cleaning tool; two 60" aluminum wands w/ tool coupling.

More Accessories!

Ruwac offers a wide variety of accessories to fulfill your vacuum needs! Contact us today to receive your very own copy of our Accessory Catalog!
