POWERHOUSE

DS 2 CONTINUOUS DUTY VACUUM

Offering high performance in a compact size, Ruwac's DS 2 Powerhouse Series offers the solution to your cleaning needs. The Powerhouse Series vacuums are powerful enough for central vacuuming systems, yet feature complete portability and functionality for everyday use.

Features such heavy-duty self-locking casters, self-cleaning filters, and dust free drop-down dustpans make cleanup easier than ever before; and fiberglass reinforced thermoplastic housing components allow maximum durability.

Although it's compact, don't be fooled by size. The Powerhouse Series vacuums are equipped with a 48 square foot MicroClean filter that's 99.9% efficient at 0.5 microns.

New filter technology allows longer vacuum cycles and less maintenance, which means increased productivity for you. Innovative, modular housing allows for an additional HEPA filter that features 99.99% efficiency at 0.3 microns.

All that dirt and debris is collected in the large, 24 gallon drop-down dustpan. If you have a lot of material to clean up, the Powerhouse Series can be adapted with a pre-separation system to filter out heavier media first, allowing extended use with less emptying or maintenance.

Portable, compact and extremely durable, the DS 2 Powerhouse Series provides a simple answer to the age-old problem of clean up.

Technical Data	DS 2410 Powerhouse	DS 2520 Powerhouse	DS 2720 Powerhouse
Voltage	230/460	230/460	230/460
Horsepower	5	7.5	10
Vacuum Pressure (Hg")	6.7	7.2	6.9
Air Movement (CFM)	265	370	506
Filter Area (ft ²)	48 ft ²	48 ft ²	48 ft ²
Weight (lbs.)	215	350	430
Inlet (in.)	2.75"	2.75"	4"
L x W x H (in.)	38 x 32 x 69	38 x 32 x 69	38 x 32 x 69

Specifications are subject to change without notice.

FEATURES

Foot lever actuated dustpan is ideal for dust-free emptying.

New MicroClean filtration technology allows material to be collected without loss of suction.

Heavy duty self-locking casters allow for easy maneuverability.

Fiberglass reinforced housing is lightweight, durable and dent-resistant.

DS vacuums are HEPA-ready should your application require absolute filtration.
