

THE RED LINE

THE ORIGINAL INDUSTRIAL VACUUM SERIES FOR FINE DUST FEATURING INDUSTRY-LEADING FILTRATION COMPLIANT TO OSHA SILICA DUST STANDARDS

Versatile All-Purpose Vacuum System

Ruwac's Red Line Series single phase portable intermittent duty vacuums may look like small, but they pack a serious punch compared to other industrial vacuums of their size. Fine dusts are no match for their power and superior filtration, putting them in position to remove the nuisance in your job. With Ruwac's Red Line you get...

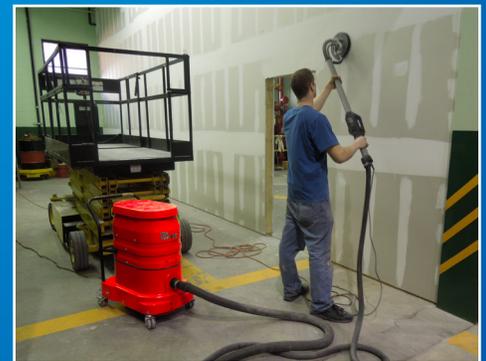

- **Industry-leading MicroClean Filtration:**
99.9% efficient at 0.5 Microns; It's also backed by a 3-year filter life guarantee!
- **Durable Compression Cast Composite Housing:**
Will never dent, rust or break and is backed by Ruwac's lifetime guarantee
- **Fully grounded:** Protect against static build-up
- **External Manual Filter Cleaning:**
Simple shaker system means you never have to take apart your vacuum to clean the filter
- **Foot-Actuated Dustpan or Direct Bagging:**
For clean, dust-free emptying with little to no contact with the vacuum's contents.

WNS SERIES

	WNS1000 "Baby Red"	WNS2220 "Little Red"
CFM	112	200
Hg"	7.9	7.2
Volts	110	110
HP	1.6	3.2
Amps	12	19
Filter (ft ²)	13	13

STANDARD - NO SILENCERS

Quiet, Powerful
High Filtration

WS SERIES

	WS2220 "Quiet Red"	WS2320 "Red Raider"
CFM	200	288 / 340
Hg"	7.2	5.5 / 7.2
Volts	110	110 / 240
HP	3.2	4
Amps	19	19 / 15
Filter (ft ²)	13	28

PORTABLE FEATURES

Oversized filtration efficiently removes large quantities of dust

Foot-actuated dustpan makes emptying easy and dust-free

Low inlet for easy portability and prevents tipping

THE BEST FILTRATION ON THE MARKET

Ruwac's low-loading MicroClean filters are specifically designed to capture powders and dusts. The innovative pleated design allows filter area to fit in a confined space. There are no paper or cartridge filters here. Our filters are made of the best quality materials to ensure longevity and performance. Ruwac filters are removing particles down to and including .5 micron. Unlike cartridge filters, they do not need to be replaced, our filters are permanently installed and can be cleaned in place. The vacuums.

Pleated paper and cartridge filters can become distorted with too much use, making the vacuum useless. With a Ruwac vacuum, you never have to worry about filter integrity while vacuuming and cleaning. Furthermore, an external manual shaker allows users to rid the filter of dust accumulation, extending filter life. So stop messing with the rest -- Put a Ruwac filter to the test!

Optional HEPA Filtration for Silica Dust Air Purification Is Available

INCOMPARABLE BENEFITS & OPTIONS

Indestructible Housing

- Compression cast composite housing is durable, rust-proof and dent-free
- Backed by Ruwac USA's lifetime guarantee

Manual Filter Shaker System

- Easy-to-use pull-in handle shaker
- Cleans filter without vacuum unit
- Quick-acting removal

ORIGINAL PORTABLE VACUUM SERIES FOR FINE DUST

MARKET!

Collect and contain fine dust to be maximized within a vacuum. Filters are made out of only the finest paper filters which need to be replaced without disassembling the vacuum.

Each filter cake, rendering a vacuum without collapsing filters. Our filters are designed to preserve shape and allow for annual cleaning assembly and renewing air flow.

Available.

FUNCTIONS

Filter system

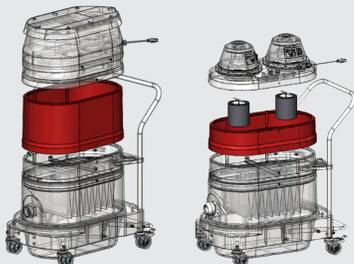

and pull-out

requiring no disassembly

resistant for clog prevention

Optional HEPA Maxx & HEPA 2.0
Compliant to OSHA Standards for Silica Dust

- HEPA Maxx:
 - MERV 18 at 99.997% @ 0.3 microns
 - Individually DOP tested
 - Minihelic for filter monitoring
- HEPA 2.0:
 - MERV 17 at 99.97% @ 0.3 microns
 - For WNS2220 or WS2220 units only

DIRECT BAGGING VACUUMS

STANDARD - NO SILENCERS

	WNS1000-DB	WNS2220-DB
CFM	112	200
Hg"	7.9	7.2
Volts	110	110
HP	1.6	3.2
Amps	12	19
Filter (ft ²)	13	13

WNS-DB SERIES

	WS2220-DB	WS2320-DB
CFM	200	288 / 340
Hg"	7.2	5.5 / 7.2
Volts	110	110 / 240
HP	3.2	4
Amps	19	19 / 15
Filter (ft ²)	13	28

WS-DB SERIES

Attaches in 3 easy steps!

Direct bagging safely collects contents and is easy to dispose. Optional LongoPac is available!

BAGGER VAC FEATURES

THE RED LINE

Need More **Power**? Try the WS2320 Heavy Duty Vac!

- Compact design with 11 Hg" negative pressure makes it one of the most powerful and economical portable vacuum on the market!
- Easily handles larger piles, particles and heavier materials
- Supports longer hose lengths and multiple operators
- Fully grounded to protect against static build-up
- Inclusive sound suppression for quiet operation
- Heavy duty 3" double casters, a counterbalanced base and low inlet provide stability and easy mobility

CFM	Hg"	Volts	HP	Filter (ft ²)
300	11	240	3.2	28

Great for:

- Insulation Removal
- Vermiculite
- Asbestos
- Construction Cleanup
- Abatement
- Plastic
- Metal Scraps
