

TruBrand™ | 1-15DS Shot Blaster

Versatile, self-propelled, walk-behind shot blasting system, ideal for medium and large sized jobs. Strip, clean, and profile concrete and asphalt in one easy step. Operate virtually dust-free when attached to a TruBrand dust collector.

- ▶ **Easily maneuverable, self-propelled machine—forward and reverse**
- ▶ **AC inverted drive-motor with integrated brake for even, down-slope operation on ramps and inclines**
- ▶ **Quick-lift rear caster assembly for easier transporting**
- ▶ **Highly versatile and appropriate for medium to large job sites**
- ▶ **Excellent for industrial floor prep, road and airport maintenance, asphalt blasting, decontamination, and much more**
- ▶ **Labor and time-saving shot blasting process strips, cleans and profiles in one step—cost effective and friendly to the environment**
- ▶ **Operates virtually dust-free when connected to the TruBrand 6-54DC dust collector—healthier for the operator and other workforce**
