

TruBrand™ | 6-54DC

Heavy-Duty Dust Collector

The durable steel construction of the 6-54DC dust collector is designed for the rigors of concrete, masonry, tile mortar and asphalt materials. This unit provides reduced debris and dust generated on surface preparation jobs, plus reduced airborne dust and particulates. Withstands the demands of heavy commercial or surface-prep contractor use.

- ▶ **Six cartridge filter system provides comfortable, dust-free working**
- ▶ **Auto-pulse cleaning with 11-second pulses prolongs filter life**
- ▶ **Durable steel construction**
- ▶ **Large capacity dust bin maneuvers easily for disposal**
- ▶ **System matched for use with shot blasters, large grinders and more**

SPECIFICATIONS

Item	Description
1603-3300	TruBrand 6-54DC Dust Collector, 230V, Black (ea)
1606-3303	TruBrand 6-54DC Dust Collector, 480V, Black (ea)

Static Pressure	21 in H ₂ O
Air Flow	900 cfm maximum
Dust Bin Capacity	170 lbs.
Amperage	21.3/11.1A
Voltage	230V/480V
Power Cord	75 ft.
Dust Hose Connection	5 in.
Dimensions	52" L x 33" W x 63" H
Weight	Net 850 lbs.
