

U.S. SAWS

PRO GRINDER-VAC ASSEMBLIES

Grinder-Vac Assemblies

- Hand-held units that are great for smaller jobs or in combination with walk-behind grinders on larger projects
- Use on concrete for cleaning, leveling high spots or uneven floor surfaces, removing glues, mastic, epoxies and other coatings
- May be connected to a variety of dust collection systems for dust containment
- The unit's polyurethane dust shroud is long lasting and is offered in full shrouds and convertible models that flip up to allow for edge work along walls
- Systems include electric grinder, dust shroud (full or convertible), 8' of hose and hardware for mounting diamond cup wheels, Zec®s, or polishing pads

Part Number	SX60006CG2 SX60006PPG2
Production Capacity (sq ft/hr)**	150-200
Grinder Model	Metabo W24-230
Power Source	15 amp Electric
RPM	6,600
Power Requirements	120V, 60Hz
Wheel Diameter	7"
Weight	16 lb
